Why NOVO?

The most experienced team, In-House Research and Development, innovative technology, superb raw materials, we offer the best in every class:

Image Quality

Reliability

Ease of Use

Professional Support

Accessories

Lookout

Organic Detection, Live Audio and Video

The NOVO Lookout is a Lightweight, 3 in 1 accessory enabling the following capabilities.

Organic Detection

- Assists in identification of the content and nature of an inspected item by providing organic / inorganic detection
- A Colorized X-Ray Image is Automatically Displayed

Live Video

- Provides a Live Video stream of the inspected item
- The Camera switches automatically between day/night mode (Infra-red)
- Provides a Still Image that can be grabbed and used for analysis and documentation

Live Audio

- Provides a Live Audio stream of the inspected environment allowing the operator to hear the Golden's "clicks" in addition to monitoring the sounds in the surrounding area
- Controlled completely by the NOVO Touch Software
- Compatible with all Golden Engineering sources including the XRS4
